PRESS RELEASE

Roadshow on Initial Public Offering of PESTECH (Cambodia) PLC

On July 27, 2020, PESTECH (Cambodia PLC) organized a Roadshow on Initial Public Offering through TELE-CONFERENCE presided over by His Excellency **Hong Sok Hour**, CEO of Cambodia Securities Exchange.

H.E **Hong Sok Hour** congratulated and admired PESTECH for the effort for going all the way since the very beginning of the procedure until this stage and the listing of PESTECH on the CSX in the near future will make it become the 13th securities-listed company in Cambodia Securities Exchange. He also encouraged potential investors to look deeper into the CSX's listed stocks, including PESTECH, and ready to welcome one or two stocks which may be there before the end of year. Furthermore, he also encouraged potential companies to diversify their financing sources, not to rely on bank loans, which would become a big burden, or even, a fatal blow to survival in times of crisis like the one we are experiencing right now.

After that, **Mr. Lim Pay Chuan**, Executive Chairman of PESTECH, presented about PESTECH (Cambodia) as well as answered some questions from the investors. Please note that PESTECH (Cambodia) was established in 2010 and is a wholly-owned subsidiary of PESTECH INTERNATIONAL Berhad whose main business is to provide comprehensive power system engineering and technical solutions. PESTECH plans to issue around 4 million shares which is approximately USD 3million with IPO price KHR 3,120 or USD 0.76 per share. The subscription will begin from July 27 to August 4, 2020. The event was attended by many investors and ended in the same morning with very friendly and welcoming manner.
